SALIENT FEATURES

Concave Boron Disc

It helps deliver deep ploughing, requires no maintenance. Delivers uniform pattern of soil profile.

Disc Scrapers

It helps to clean the disc for ease of penetration, and break the furrow slices.

Coulter Wheel

It delivers straight line of cut and ensures that the plough is aligned with tractor.

Non roll-over reversing Mechanism

Facilitates safe operation. Prevents vibration of the tractor.

Powerful Hydraulic Cylinder

For quick and easy reversing of plough.

Stopper bolt

It helps to adjust the working width.
